

21 November 1983

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: John A. Bross

SUBJECT: Support to DCI Advisory Commission on
Multidisciplinary Counterintelligence
Analysis by [redacted]

STAT

1. I wish to express the thanks of this Commission as well as my own personal appreciation for the exceptionally helpful and efficient support which [redacted] has rendered to the work of this Commission. Her consistently patient, informed, intelligent and courteous advice has provided us with valuable insights into the present workings of CIA and the Intelligence Community. The views which she has expressed on organizational matters under review by the Commission have been non-parochial, balanced and constructive.

STAT

2. Arrangements for the administrative support of the Commission have been uniformly impressive. Appropriate conference space and highly competent secretarial assistance have been available at all times -- sometimes at extremely short notice. Appearances of witnesses were scheduled responsively to the needs of the Commission and all studies and reports in the custody of CIA bearing on the subject of the Commission's deliberations were available to Commission members on request.

3. Not the least of [redacted] many contributions to the work of the Commission were the comprehensive records which she maintained of meetings of the Commission and of testimony taken before it.

STAT

4. We have every reason to be thankful for [redacted] outstanding performance. I should be very grateful if this memorandum could be made a matter of permanent record.

STAT

John A. Bross
